

Community Update

10-9-15

With a chill in the air and crops being harvested fall is well entrenched. It seems like just yesterday that school was getting started and fall sports were just underway, but now we're down to the homestretch with just a few contests remaining. After a great homecoming victory by the football team they look to continue their hot streak tonight against North Baltimore! In case you haven't checked out our webpage, congrats to Mason Warnimont for being nominated as a player of the week! The weekend looks to be a busy one with the Marching Band at BGSU Band Day, 5/6th grade volleyball at CR, the JV football team taking on North Baltimore at home, boys' soccer traveling to Lake for a night game and the girls' soccer team will look to build on their impressive win earlier this week at home against Allen East (this is also the Senior Parents' recognition game). Good luck to all!

Next week on Tuesday night we'll be hosting a Eureka Math Parents' Night at the school to provide an overview of the program and how we are implementing this new curriculum to improve student learning. The more communication we have regarding this program and how we can all be a part of helping students succeed the better we will all be equipped to achieve our goals. Many thanks to our elementary staff for organizing this evening and providing childcare on-site for parents. If you have any questions about the event we encourage you to contact the elementary office.

Among next week's many events on the calendar I would highlight a particularly special one. On Friday evening we will recognize a former teacher and coach, Dave Siferd, at the football game against McComb for his many decades of service to the school and his student-athletes. While we encounter countless people who are dedicated to helping students succeed, people like Dave who dedicated their life (31 years teaching, 41 years coaching football, and 30 years coaching wrestling) to helping student-athletes succeed here at CR, as well as later in life, are a rarity that should be celebrated. We've been fortunate to have a number of those special individuals at Cory-Rawson and we're excited to recognize Dave for his impact on the school, students, and community!

Finally, don't forget the scheduled two-hour delay next Friday, October 16th for teacher in-service.

Have a great weekend and Go Hornets!
