

Community Update

6-8-18

Greetings! I hope this update finds you doing well and enjoying the first few weeks of summer break!

While it might be a break for some, it's been non-stop activity at the school since our students left. Open gyms are well underway for our athletic teams. The custodians hit the ground running in order to get ahead of the flooring removal in the high school building. The flooring contractors are making great progress in the halls off the old high school cafeteria. The area is blocked off for the required asbestos abatement and we should soon see flooring prep complete in some of those areas with flooring installation to follow. Meanwhile, other projects are also ongoing. Thanks to the Athletic Boosters our ball fields are getting a much-needed makeover in the infields. Our summer maintenance crew is also hard at work completing repairs around the grounds and in the buildings.

On an academic note, we are nearing the end of our elementary principal search. A huge thanks to the teachers and our SOS parent representatives who volunteered their time to serve on the first round interview committee. Once we complete the process we will make a recommendation at the June Board meeting to hire the new principal so they can get a good start on meeting everyone and planning for the upcoming school year.

In the meantime, enjoy your summer and the time with your families! Go Hornets!
