

Morning Announcements

Tuesday March 17, 2020
Today is St. Patrick's Day

STUDENT INFORMATION

If you were not in attendance last Friday March 13, please call Mrs. Welch in the main office today, to set up a time to pick up your books and locker contents as well as a computer if you need one.

DISTANCE (ON-LINE) LEARNING

As mentioned in yesterday's announcements, your teachers are working hard to put together lessons for you to access on-line. Please go to the Cory-Rawson home page and click on the link called Grades 7-12 Portal Page. This gives you access to all of your teachers and their assignments. All assignments will be posted on Monday mornings beginning March 23. You may choose to do all of your lessons in one or two days OR we suggest that you complete them as follows:

Monday: Elective Classwork

Tuesday: Math Classwork

Wednesday: English/Literature Classwork

Thursday: Social Studies Classwork

Friday: Science Classwork

*Each assignment should take about 45 minutes to complete.

You will have one week from the day we suggest you work on the assignments to have them finished. So, *let's use Science as an example: Science will be assigned for Friday March 27th. That work will be due the following Friday, April 3.*

If you or someone you know, does not have internet access, please email me today if possible so that we can coordinate how you will receive your work.

What are office hours? Virtual office hours?

These are the times your teachers are readily available to you for help and to answer questions. These times are different for all teachers and are posted on their portal pages. Not sure? Email them and ask!
