

Community Update

7-8-16

Greetings! I hope this update finds you doing well after a wonderful weekend of celebrating our nation's independence and the sacrifices our service men and women have made to maintain our freedoms!

Our permanent improvement projects continue to progress, especially with our summer shutdown for student activities in effect this week. The new locker room flooring will soon be installed. Windows in specific areas of the high school are being replaced. The parking lot has been sealed and re-painted. Of particular note for our visitors, the lot in front of the high school building has a new traffic pattern to improve flow and, most importantly, safety. For students coming to school and parents picking up and dropping off students at the high school entrance you will now need to enter in the drive nearest to the auditorium doors (which used to be the exit drive). You will then proceed out the drive which used to be the entrance (or, if you are looking for additional parking, proceed to the overflow lot on the side of the high school). The change was made due to several close calls with car and bus traffic entering and exiting these lots last year. As with any change we know there will be an adjustment, but we hope the slight inconvenience is worth it in the name of increased safety.

I hope to see you at the Rawson Proud Festival tomorrow evening! Events start at 4pm with the parade at 6:30pm. Following the parade you'll have a chance to take part in games and fun and, if you have a good arm, dunking me in the dunk tank!

Have a great weekend!
