

Good Friday afternoon! I hope this update finds you doing well and enjoying the summer! It's been quite busy at school with open gyms, camps, and excellent progress on many of our summer projects!

Congrats

Congratulations to Mason Warnimont, not only for his accolades at the State Track Meet (1st in both the 100m and 200m dashes!) but also for qualifying for the National Outdoor Championships in Greensboro, North Carolina! Mason will run today in the 100m qualifying at 12:40 pm and finals at 6:00 pm. On Saturday he runs qualifying in the 200m at 11:55 am and finals at 2:35 pm. You can watch the live feed at: <http://cdn.runnerspace.com/nbnolive.html> Good luck Mason!

Permanent Improvement Projects

Among the numerous projects, both big and small, that we have going on this summer the window replacement project on the HS wing is the most noticeable. We are making excellent progress (see picture below). We're also having brick repair work down to the Middle School (2nd floor area). Additionally, our new HS lockers are scheduled to be installed in July.

Curriculum Training

Our elementary teachers have been hard at work in preparing for their new English/Language Arts curriculum implementation. Last week they attended training to help equip them to have a successful start to the school year with our exciting new curriculum.

Strategic Planning (Reminder)

You may remember that early on in this school year we put out a call for parents and community soliciting involvement in an existing student/staff group as a subcommittee who would explore strategic planning for our school district. Unfortunately, we did not have sufficient responses to our request to move forward. We are again putting out a call for anyone interested in being part of the long-term strategic planning for the district. Our goal is to convene a committee after July 4th, but before the school year begins, and to meet several times throughout the school year. The goal of this committee is to explore and help us answer a number of questions before us and to help make recommendations to the Board of Education about longer term goals for the district. If you are interested please contact the superintendent's office at 419-963-3415 or via email at hlasko@cory-rawson.org.
