

Setting Up A La Carte Spending Limits

Why is this important?

Setting up a la carte spending limits are important because they make it possible for you to manage what your student is eating in the cafeteria. By setting those limits, you can choose whether you want to enable your student to make these decisions on their own, or whether you want to set the parameters for how much they can spend on a la carte items.

Where do I go to enable spending limits on my student's account?

Log in to your account at www.MyPaymentsPlus.com. If you do not have a MyPaymentsPlus account yet, you can create a free account by simply clicking the "Register Now" button.

How do I set the spending limits for my student(s)?

After logging in, click "Manage Account" and from the dropdown, click "Manage Spending Limits"

Each of your student's will have their own box and their own spending limit capability. You have the option to set their spending limit daily, weekly or monthly. If you do not wish for your student to eat from the a la carte line, simply make their allowance \$0. Click "Save Changes" to enable your set limits.

The image shows a form for setting spending limits. It includes a text input field labeled "Spend up to:" with the value "100". To the right of this field is a dropdown menu currently set to "Daily". Below the dropdown menu are three options: "Daily", "Weekly", and "Monthly". A "Save Changes" button is located to the left of the dropdown menu.
